OBSEQUIES OF CHAS STEWART PARNELL.

A Great Concourse of People—No Disorders in Dublin—Some Confusion Caused by the Crowds—Mrs. Parnell in a Pitiable Condition.

DUBLIN, Oct. 12.—The day looked forward to with so much anxiety has passed, and the country is congratulating itself that no such scenes of disorder as has been predicted, occurred to mark the funeral of the nation's hero. The believers in the ability of the Irish people to govern themselves are rejoicing at the evidence the occasion has afforded. That event which has stirred the mercurial temperment to a degree seldom paralleled has caused them to forget the proprieties, and has not lead them into any disorderly outbreak. On Saturday night numerous extra trains were run from London to Holyhead to accommodate the hundreds who wished to accompany the body to Ireland. The scene at Holyhead when the cortege arrived at 1:55 o'clock yesterday morning was mournful in the extreme. Dozens of Parnell's close friends had come across from Kingstown to meet the body and burst into tears as they beheld the coffin. The remains were quickly placed aboard the steamer Ireland, which had been detailed for the service. The passengers followed and crowded the boat to its utmost capacity, even the decks being packed with people, who suffered great discomfort on account of the inclement weather, the sea being rough and heavy, wind and rain prevailing. The chief mourners who sat around the coffin in the cabin were Mr. H. Parnell, who bears a striking resemblance to his late brother; Mrs. Dickinson, a sister, and Miss Dickinson, a neice of the deceased. With these was Miss Maud Genne, who became famous for her stubborn resistance to eviction in Donegal. She had traveled from Toulon to attend the funeral of the man who was an idol with her. She was clad in deep mourning, and attracted much attention. All the friends, who had been at Brighton in attendance on the body of their late chief, were also aboard the steamer.

At Kingstown, about 9 o'clock in the morning, despite the fierce downpour of rain and wind that made it almost impossible to stand on the pier, thousands of people were waiting and reverently bared their heads as the coffin was brought ashore and the body of Parnell rested upon the soil of the country for which he struggled and died. A singular scene was now witnessed. As the coffin was removed from the box which had encased it, the crowd rushed forward and seized the box, tearing it quickly in pieces for the purpose of obtaining fragments of the wood as relics.

IN DUBLIN.

In a few moments more Dublin was reached and a great throng greeted with every mark of sorrow and love the coming of the body of their leader. The coffin was borne on the shoulders of six stalwart Irishmen to St. Michael's church, near the law courts, where the rector, Rev. Thomas Long, assisted by Rev. G. A. Frye, rector of All Souls church, Manchester, read the service of the church of Ireland. The more immediate friends and the relatives of the deceased completely filled the church, the throng of general mourners remaining meanwhile outside in the pouring rain. The brief service being over, the procession was formed and the coffin was escorted by numerous Irish societies and by many thousands of citizens, conveyed to the city hall and placed upon a magnificant catafalque in the central hall, at the foot of the statue of the Great O'Connell. At the head of the coffin stood the colors of the Wicklow volunteers, organized by Mr. Parnell's father in 1779. At the top of the coffin was an immense cross of flowers inscribed with the names of the thirty-one faithful parliamentary colleagues of Parnell. The enclosure around the coffin was a mass of floral offerings of every shape and design, coming from admirers in all parts of Ireland and England. So numerous were such tributes that room could not be found for all of them in the hall, and the stewards were finally obliged to request that the donors send their tokens to the cemetery instead. Some of the masses of flowers bore revengeful mottoes, but most of the inscriptions were of a conventional type.

A GREAT THRONG.

At one o'clock the arrangements were completed, so that the crowd would be permitted to file past the coffin. A procession six deep moved past, and the stream flowed uninterruptedly for three hours. It is estimated that 15,000 people passed the body. The crowd was kept moving as speedily as possible by a large detail of police, and there was no hitch in the programme. The Parnellite members of Parliament stood inside the barrier as a sort of body-guard, Mr. Campbell, who had been Parnell's closest intimate friend for years, standing at the foot of the coffin unable to repress his tears. At one o'clock the procession was stopped, although there seemed no end to the line of people who wished to pass the coffin. It was necessary, however, to begin the march to the cemetery, which would not otherwise end till evening. When the coffin was removed a photograph of the scene was taken, showing the casket and catafalque, with the statues of O'Connell, Grattan, Lucas, and the poet McCarthy, and also including the brother and sister of deceased and a group composed of the last members of the crowd that had been admitted.

TO THE TOMB.

Rev. Dr. Frye and Chaplain M. C. Vincent, of the Rotunda Hospital, gave the word for the removal of the body, and at 2:30 the procession to the tomb began. The coffin rested on an open hearse, the only floral design accompanying it being the one sent by the widow, bearing the words: "To my own true love, my husband, my king." The other floral tributes were taken to the grave by the pall-bearers and the colleagues of the deceased. Among those conspicuous in the procession was Mr. Alexander J. Reid, the U.S. Consul in Dublin. Not a single anti-Parnellite known as such, was visible. The order of march was: Pall-bearers; chief mourners; officiating clergymen; Gaelics, with ex-Head Centre James Stephens and the equally noted John O'Leary; other societies and the general public. Perfect order was preserved. The sight from the city hall while the vast cortege was in motion was unequalled even by the great outpouring at the time of the O'Connell centenary. The streets along the route of the procession and the intersecting streets for blocks in both directions were masses of human beings, while the windows and house tops were also black with spectators. Most of the houses were draped in mourning and festooned in crape swung across the streets at frequent intervals. Hundreds of Irish flags draped in black were displayed, and twenty bands scattered through the line of marchers furnished music, the strains of the dead march in Saul, the *Audeste Fidelis*, hymns and Irish dirges adding to the solemnity of the occasion. When the head of the procession arrived opposite St. Catherines church, the scene of Emmett's execution, a halt was made for a few minutes, all hats being raised. A second halt was made in front of the Bank of Ireland, the old Irish Parliament building, where a similar quiet salute was rendered, and a third stop was made at the National Club, of which Mr. Parnell was the leading member. All in the procession wore badges of crape and green ribbon. The line six deep occupied an hour in passing a given point. Many weird scenes were witnessed. Queer looking old men and women dressed in costumes such as few of the visitors, and, in fact, few of the residents of Dublin had ever seen, were visible here and there in the crowd, having been attracted from the rural provinces or from the slums of Dublin by the rare interest of the occasion. The "Corner Boys," with the inevitable pot hats, were present in force. Not only the poorer classes but the well-to-do were represented, and rich and poor jostled one another without ceremony. Lamentations could be heard everywhere. Frequently women could be seen raising their hands as the coffin passed, in Shaughran attitudes and uttering wails, rising into screams of woe. Often the wailers cursed the foes of Parnell, and one frenzied old hag in College Green screamed "The English have murdered Charlie," and kept up this dismal refrain until she was removed by the police. The saloons were all opened and did a rushing business. In fact the only arrests that the police found it necessary to make were of drunken men whose condition led them to demonstrations of grief and rage. Among the banners displayed along the route many bore the words said to have been Parnell's last message of love to his countrymen.

The utmost grief is everywhere manifested expressions being heard on every side, indicating that many could hardly believe their great and beloved leader could have so suddenly departed. Nothing could convincingly exhibit the immense popularity of Parnell than this spontaneous demonstration—for spontaneous it was, hardly any part of the programme having been arranged until the last moment. Glasnevin, the last resting place of the dead statesman, was reached at 6 o'clock. It was then dark. The gaelics surrounded the grave, which was lined with green turf and into which the people pressing forward so near as permitted, threw evergreen boughs. Inside the line formed by the Gaels were the mayor, sheriff and corporation of Dublin, with other leading citizens, and the chief mourners. There were no Catholic priests present, though most of the people gathered around the tomb were Catholics. The fact that their clergy frowned upon their leader in death, as in life, had no effect upon the devotion of the people to their political idol. Rev. Drs. Vincent and Frye read the burial service by the light of lanterns. Those within hearing listened reverently, and all joined tearfully in the recitation of the Lords prayer. The scene was most impressive, the ladies near the grave sobbed aloud and their grief was re-echoed from all around. As soon as the grave was filled up the crowd began slowly and quickly to disperse. There was no speaking and no services, except the reading of the burial rites. The Gaels were left to guard the grave and were soon alone with the great dead.

TWO CROWDS MET.

At the cemetery crowds had all day been inspecting the turf lined tomb guarded by a small group of police. When the first part of the procession reached the lower gate of the cemetery at 5 o'clock, it was found impossible to penetrate the dense masses assembled there, and after a struggle the police had to abandon the effort to make a way through the crowd. The surging multitude around the gate seeking to see the cortege, met and were counter to the wave of others who were trying to enter. A scene of great confusion ensued. It was then deemed best to close the lower gate. This was effected amid great disorder, just as the hearse reached the spot. The hearse was then escorted to the upper gate, the coffin was removed and placed on a platform especially constructed in such a way that the procession could file around it and have a view of the bier. At six o'clock, when dusk was fast falling on the scene, the procession was still filing around the bier, so orders were given to clear the side of the grave. A body of Gaels cleared the way to the grave and formed a circle within which the Lord Mayor and civic dignitaries and Parnell's colleagues stationed themselves. The crush on all sides was terrible, and the noise of shrieking women and of children squeezed in the the throng, and the shouts of men struggling amid the crush, made inaudible the voices of the clergy reciting the ritual of the Church of England. Last night the city was quiet, and it is believed that if the anti-Parnellites refrain from making any demonstration there will be no trouble.

MRS. PARNELL'S CONDITION.

LONDON, Oct. 12.—Advices from Brighton to day state that Mrs. Parnell's condition is pitiable, and grows worse instead of improving. Immediately after Parnell's death she was in better condition than now, for although she fainted, she recovered sufficiently to have some communication with friends, and through their medium with the outside world. She has been growing worse every hour, until now she only moans in reply to questions, and is unable, or refuses to speak. The doctors, who are in constant attendance, greatly fear that her condition may grow more critical and are doing everything possible but apparently without effect. The only intelligible sounds she has uttered in hours have been plaintive cries for her husband.

THE OFFICIATING CLERGYMAN.

Considerable indignation has been aroused in Dublin by the report that Chaplain Vincent, of the Rotunda chapel, who officiated Sunday at the burial of Parnell, received a threatening letter warning him not to read the services of the church over the departed leader. The reverend gentleman paid no attention to the threat, but went about his business as calmly as in any case. His associate in the religious ceremony, the Rev. S. A. Frye, is the rector of All Saints at Manchester, England, an Irishman by birth, and one of the few Protestant clergymen who have heartily sympathized with the home rule movement. Mr. Frye is a member of the Parnellite club at Manchester, and said only a few days ago that he would rather see Ireland under Balfour than under the seceders from Parnell, for the reason that the latter would mean an Ireland rule for the Roman hierarchy. Mr. Frye is said to have shed tears at Parnell's grave after reading the funeral service.

AN INTENSE FEELING.

The feeling in Ireland over yesterday's demonstration is intense and Parnell was never so popular in his life as he appears to be when dead. Parnell's friends are indignant at the attempts made by John Dillon and others to show that Parnell refused to release the Paris funds of forty thousand pounds for the benefit of the evicted tenants. Parnell's friends claim that he was perfectly willing to release the fund provided that his claims for money advanced to evicted tenants should be allowed on the same basis as money advanced by John Dillon and others. Mr. Dillon, it is asserted, is perfectly willing to have his own claims allowed out of the fund, but not willing that Mr. Parnell's claim should be recognized. The fund, according to Mr. Parnell's latest statement, amounted to about £35,000. Against this there are a number of claims, bringing the total down to about £20,000.

BOUND TO KEEP GOING.

The Parnellite M.P.'s will probably hold a meeting to-day to determine upon the future policy of the party so far as they can influence that policy. It is said they have received very encouraging information from various parts of Ireland, and the present determination of the people is overwhelmingly in favor of maintaining the Parnellite party. Everything point to this as the policy to be agreed upon, and it is reported that a delegation will soon visit America and Australia to solicit funds for the Irish cause in the memory of the dead Parnell.

A Victim of Coffee.

WATERBURY, Conn., Oct. 10.—Dr. E. A. Towne has been missing from his [illegible] three days. There were fears this evening that he had committed suicide, as he had threatened to do some time ago, and his rooms over Bolan's hardware store were broken into. The doctor's body was found in bed, a bullet having pierced his heart. There is no doubt that he killed himself, as a self-cocking revolver lay near him on the couch with one empty chamber. He was a victim to the strong coffee habit, and for months his practice had been dwindling until recently he had had a struggle to live. He was 50 years of age and a graduate of the homœopathy school. He was formerly a successful practitioner in Unionville, where he quarreled with his wife, who six years ago secured a divorce from him. All his relatives live in Springfield, and are respectable people. He left a note saying: "I cannot content myself, every heart knoweth its own bitterness. Mine surely does. Good-bye, forgive. I have tried hard but failed. La grippe, etc. Thanks three times. Weary, sick. E. A. T."

Port Angeles Annexation Illegal.

PORT ANGELES, Oct. 10.—The annexation of territory to the city of Port Angeles made last April was tested yesterday in a friendly suit. The complainant was C. B Chambers, who alleges that the notice of election by publication was insufficient, and that the vote returned was illegally canvassed. The city demurred to the complaint, but it was overruled by Judge McClinton. An exception was taken, whereupon plaintiff demanded final judgment. The judge sustained the several counts and declared the proceedings of annexation null and void. This leaves the city limits as originally incorporated. The majority of the people are gratified by the result.

Jim Hill Cares for Russian Jews.

ST. PAUL, Oct. 10.—Fifty families of exiled Jews will shortly be established in homes at Mille Lacs, on the Great Northern railway. President Hill, of the road, has had fifty houses built, which, on behalf of the company, he has presented to the committee having charge of the Baron Hirsch fund. The refugees will be furnished gratis during the winter with all the necessaries of life, the road agreeing to furnish coal and wood in abundance.

AMERICAN DISPATCHES.

ROBBERS INHABIT A REMARKABLE CAVE.

The Middlesborough Enterprise in a Bad Way—American Wheat Likely to be Given an Advantage in Germany—Executions in Jamaica.

SPRINGFIELD, Mo., Oct. 12.—The news from Stone County respecting the search for the cave outlaws is still very exciting. The cave where the outlaws and suspected robbers are concealed, if they have not escaped through another outlet known only to themselves, is in one of the wildest regions of the Ozark Mountains, nearly forty miles from a railroad or telegraph office. The latest report states that Sheriff Bookout's force has been largely increased by reinforcements of armed men, who rallied to the scene of the excitement from all parts of Stone County. Growing impatient at the fruitless results of the siege, the posse determined to enter the cavern and hunt for the outlaws and their supposed treasures. The retreat proved to be a great wonder world, containing numerous avenues and pits. Descending into one of these yawning chasms, the party found other rooms below the first story of chambers. The possibility of finding one of the traditional lost silver mines of the Ozark treasures, once said to be known to the Spanish adventurers who explored the White river country, also stimulated the searching party. Room after room was entered, but nothing much was found. It is reported that the robbers, when discovered by the prospecting miners a few days ago, told the latter that they had plenty to eat and could escape if necessary through an outlet known only to themselves. The sheriff and posse are still keeping up the search.

Edward Albertson's Case.

SAN FRANCISCO, Oct. 12.—Special Agent J. H. Kochensperger of the Fidelity & Casualty Company of Chicago, which had the $10,000 policy of Secretary Edward A. Albertson, who robbed the Fidelity Trust Bank of Tacoma, has arrived here. Agent Kochensperger has just been to Gardiner City, Oregon, where he saw the wounded bank robber. He gives some information not hitherto told of the shooting of Albertson. "It was done," he said "by ex-Marshall Moore of Silver City, Nevada, who had been at Gardiner City for some time and is running an hotel there. It was at his hotel that Albertson had previously stopped. When Albertson was ordered to throw up his hands, he still kept them behind him and backed away towards a monstrous tree a few feet distant. Moore fired his Winchester and the ball went clean through Albertson's side, yet did not inflict a fatal wound. Albertson is now improving rapidly, and will soon be well. He has turned over in all $12,750 to the bank.

Uncle Sam and Germany.

NEW YORK, Oct. 12.—The Sun this morning says: The following dispatch was received from Washington last night at too late an hour to permit making of the necessary inquiries to obtain an official confirmation of it: "The government of the United States has just concluded a convention with Germany through the German minister here, by which all our cereal crops will be admitted into the German Empire free of duty in consideration of continued free admission into the United States of German beet sugar after January 1st, which under the recent law the President could then stop. This year the wheat crop of all the German states, except Prussia, is very poor, and the rye crop is a failure throughout Germany. The present rate of duty on wheat imported into Germany is 34 1-5 cents per bushel of 60 pounds."

A Jamaica Execution.

HALIFAX, N.S., Oct. 12.—Advices from Jamaica give the details of the hanging of three men and a woman at Spanish Town, on that island, for the murder of John Aller, his wife and mother, and a man named Gofaden. The executed criminals were two coolies, named Puppansing and Ibillic, the latter's wife, and a creole named R. Johnson. The murder for which they suffered the extreme penalty was a most savage one. Aller was lured from his home and murdered, as was Gofaden, who was stopping with Aller. The murderers then proceeded to Aller's home and there cut the throats of Mrs. Aller and her mother-in-law. The crime was committed in a spirit of vengeance, because Aller had testified against Ibillic in a lawsuit. The woman confessed to the crime. The criminals, not excepting the woman, met their fate bravely.

Looking Like a Collapse.

RUSHVILLE, Ky., Oct. 12.—An extraordinary meeting of the directors of the American Association, the company which built Middlesborough, has been called to meet in London on Monday. Alexander A. Arthur, who has been general manager of the Association and President of the Middlesborough Town Company, has resigned, with the entire local board of directors. There are rumors of a very sensational nature afloat in connection with the Association. It is understood that the town has gone down rapidly in the past few months.

Mexican Peasants Starving.

SAN ANTONIO, Tex., Oct. 10.—D. P. Newcomer, immigrant inspector, has just returned from a visit to Piedras Negras, Mex. He states that there is great destitution among the lower classes of Mexicans in the states of Chihuahua and Durango. There can be no doubt that there are about 4000 people seeking employment on the railroad extension between Torreon and Durango. These men and their families are almost starved and in utter want. Hundreds of unfortunates subsist entirely on the maguey plant. The drought, however, is broken and there are indications of better times.

OUR OTTAWA LETTER.

PROROGATION OF THE DOMINION PARLIAMENT.

A Small Attendance and a Lack of Enthusiasm — Boodlers Sit in Judgment on Smaller Boodlerism — Fooling With Reciprocity.

[From Our Own Correspondent.]

OTTAWA, Oct. 3.—Prorogation is over, and the members and senators who have been residents of the Capital for five months and a day attending to their legislative duties, have betaken themselves to the bosoms of their families. The number of people who turned out to see His Excellency the Governor-General close Parliament was smaller than has been the case in any year since Confederation, and the same may be said in regard to the attendance of ladies on the floor of the Senate chamber. There were only about 25, instead of being crowded, as in former years. The galleries were well filled, but in past years hundreds would have been turned away for lack of accommodation. There can be no reason for this unless it be the unpopularity of the Government, owing to the numerous scandals brought to light during the session. The usual escort, which accompanied Lord Stanley to and from Rideau Hall, was supplied by the Princess Louise Dragoon Guards, and the Governor-General's Foot Guards supplied the guard of honor. His Excellency started on the return journey amid the booming of cannon from Nepean Point, a promontory jutting out into the Ottawa at the junction of the Rideau Canal with the river. One paragraph of the speech from the Throne was devoted to the scandals. It stated that they were to be regretted, but that such legislation had been passed, and administrative action taken, as would prevent their recurrence. In regard to the legislation passed it may be said that the most particular clause of the bill was forced upon the Government by Mr. Laurier. It was to make it a misdemeanor for any Government contractor or any one furnishing supplies to the Government to contribute towards either Dominion or Provincial elections. This is a bad slap in the face to Mr. Chapleau, who stated before the Public Accounts Committee that he asked money for political purposes from Government contractors and did not think there was any harm in it.

SIR HECTOR'S DEPARTURE.

Sir Hector Langevin bade farewell to Ottawa on Friday last. He will take up his residence in Quebec. His property here is for sale, and the greater part of his household furniture. None of the ministers of the crown called on him before he left, nor did any of them accompany him to the railway station. The city members, Messrs. Mackintosh and Robillard, and a few local government contractors called at the residence of the ex-Minister of Public Works shortly before his departure, and drove to the station along with him, putting up a faint cheer as he boarded the train. Sir Hector informed them that after sufficient rest, he would again enter the political arena with renewed energy. This statement is mere idle talk, for he will never be asked to do so. A minister of the crown stated that it would have been more becoming under the circumstances if Sir Hector had taken his departure quietly, instead of attempting to get up a demonstration which turned out, as anyone might have known, to be a gigantic fizzle. All these incidents plainly show that the price demanded by Sir Hector before leaving the government was that he should be whitewashed. The penalty of his request being refused was such that the Government dare not resist. The ex-minister threatened to bring the whole fabric down about their ears if his demands were not satisfied. The Government in whitewashing Sir Hector was therefore guided by self-preservation, and not through any admiration for the hero of the Esquimalt and Levis graving docks boodling.

THE DEPARTMENTAL SCANDALS.

The Civil Service clerks who have been implicated in departmental wrongdoing and grave irregularities are very indignant over the announcement made that Hon. E. Dewdney, Hon. John Haggart and Hon Geo. Foster have been appointed to examine carefully into the evidence taken before the Public Accounts Committee so as to be able to make a report thereon to be laid before council. Now, the only one charged with malfeasance in connection with the whole Post Office Department was Mr. Haggart himself, and to appoint him one of those to report thereon is a huge farce. The Deputy Postmaster-General, Col. White, swore that he gave Miss Jane Craig's cheque to Mr. Haggart some months after she left the Department, showing that Mr. Haggart had a knowledge of the fact that the Department was being to a certain degree plundered. Then there was the more serious charge brought against him by Mr. Lister in the House of Commons. Mr. Dewdney is no better than Mr. Haggart. The Interior Department is not only a cess-pool of corruption, but it was sworn to that one of the messengers, whose salary is charged to the country, was acting as a butler or son of waiter for Mr. Dewdney. Another carpenter swore that he did certain private work at Mr. Dewdney's house, some of it being done in Government hours. And still the Government say he is capable to look into this matter. The granting of $15,000 to Van Wart and Mr. Baird, ex-M.P., more than Parliament voted, in connection with the steamship line to the West Indies, is enough to disqualify Mr. Foster for sitting in judgment on any man.

AGAIN POSTPONED.

The proposed trip of the Ottawa delegates to Washington on the 12th of October, has again been postponed. This information was said to come from Washington. At all events the news was given out here by the Government to the subsidized press and the reasons for this postponement was thrown on the United States government, as has always been the case in regard to this matter. To the illness of Mr. Blaine the Secretary of State, is attributed the cause of the delay. It is, however, rather strange that the United States government should have been able to complete reciprocity conventions with Spain on behalf of Cuba, Porto Rico and also with the independent republic of San Domingo. Mr. Blaine was ill for the greater part of the summer, but he is now restored to health. The fact of the matter is the Canadian government do not desire a reciprocity treaty with our neighbors to the south and President Harrison knows it. He has therefore no desire for any humbug with them, and whatever may happen in that direction he will leave to the Secretary of State himself. President Harrison is determined that he will not be misrepresented by Canadian ministers the same as was Mr. Blaine and the United States government during the last Dominion elections.

REORGANIZATION OF THE GOVERNMENT.

Hon. Mr. Abbott says it will take some time yet before the government is reorganized. There is little doubt but this is correct, since it will take considerable difficulty and create no end of disappointment before the tottering fabric can be bolstered up even temporarily. One thing is evident, and that is that Mr. Abbott, who was accepted as a provisional arrangement, has no intention of giving up the leadership.

SLABTOWN.

A Peculiar Story.

CINCINNATI, Ohio, Oct. 12.—The court at San Diego, Cal., has just given Mrs. Whiteworth of this city and two cousins $250,000 worth of real estate in the heart of the city. Mrs. Whiteworth is a daughter of James Robinson, associated teacher, who 63 years ago deserted his wife and two children near this city and eloped with Sallie Snyder, a pupil. They went first to Canada. After two or three years the girl sought unsuccessfully a reconciliation with her parents. At the same time Robinson surreptitiously visited his home, and, unknown to them, secured a glimpse of his family. The couple then went south, as was determined on the start. They settled in what is now Texas. Robinson prospered and was elected Lieutenant-Governor, and later became Governor. Through the impeachment of Governor Smith at the time of the war over Texas, Robinson was the most prominent man in the State, and favored the independence of Texas. He was captured by Mexicans and terribly abused until he promised to use his influence to have the State returned to Mexico. This made him unpopular, and he went to California to avoid lynching. There he became wealthy and died in 1863. A son of the Snyder woman became a member of the California Legislature, but died in early manhood. The Snyder woman, who all along had been supposed to be Robinson's wife, had inherited all the property, but 20 years ago sold the realty in San Diego, and four years ago returned to Cincinnati. Mrs. Whiteworth heard of it two years ago, hunted her up and learned her father's history and began the suit which has ended so well for her. Miss Snyder is now 82 years old, but bright as a woman of 50. She resides at Wyoming, a suburb, and though rich, still cherishes such a hatred toward her family for refusing to forgive her, that she allows her only brother to reside in the county poorhouse.

"Just as Good,"

Say some dealers who try to sell a substitute preparation when a customer calls for Hood's Sarsaparilla. Do not allow any such false statements as this induce you to buy what you do not want. Remember that the only reason for making it is that a few cents more profit will be made on the substitute. Insist upon having the best medicine—Hood's Sarsaparilla. It is Peculiar to Itself.

A NEW KIND OF INSURANCE

For 50 cents you can insure yourself and family against any bad results from cold, coughs, whooping cough and croup during the changeable weather. One or two doses of Braden's Cough Cure will convince you that it is one of the few cough remedies worthy of standing in the front ranks to fight these dangerous foes.

D. E. CAMPBELL,
Proprietor and Manufacturer.

25 cents will insure you against any bad result from an attack attack of bowel complaint during the summer. One or two doses of DR. FELLOWS' CORDIAL OF BLACKBERRY AND JAMAICA GINGER will cure any ordinary case. It never fails, and is pleasant and safe to take. No one can afford to travel without it.—D. E. CAMPBELL, Sole Agent, corner Fort and Douglas streets, Victoria, B.C.

CANADIAN NOTES.

Recent Events Reported From the Eastern Provinces.

At the London Assizes, Anthony Mansell was found guilty of the manslaughter of Harry D. Platt.

Archibald McDougall, one of Brockville's oldest and most respected citizens, died suddenly yesterday.

The leader of this year's matriculation class in the university of New Brunswick is a lady, Miss M. F. McIntosh.

John Pitt, the man assaulted by the Ottawa chief of police during the trouble with the strikers last week, has entered an action for $5000 damages against the chief.

Dr. Emmes, of New York, the highest authority on nickel and its uses, has gone to examine the nickel deposits of Sudbury district on behalf of the Emmons Metal Company, of Philadelphia.

Arrangements have been made between the Michigan Central and the Canadian Pacific railway companies whereby the former carries the freight of the latter from Windsor to western points.

All the striking workmen in Halifax were to resume work to-day. The bosses in all trades have promised to pay uniform wages to apprentices and furnish them with employment all the year round.

Archibald Chisholm, who has been committed in Winnipeg for seducing little girls, was formerly a resident of Belleville and has several brothers now living there. He was born in Sidney township.

The total number of big family one hundred acre grants issued by the Quebec Government to date is 1477. This represents a population of over 27,727 people and absorbs 147,700 acres of public domain.

Hon. Charles Clark has sent in his resignation as a member of the Ontario Legislature for East Wellington, which constituency he has represented since 1871. He was Speaker of the Legislature from 1880 to 1886.

J. Herbert Beatty, one of the best known men about Toronto, an active Conservative worker and a warm personal friend of the late Premier, was taken to the hospital lately suffering from a fit of apoplexy.

The board of management of Knox College has been presented by the college alumni association with a large portrait of Principal Caven in recognition of his having completed a quarter of a century as principal.

Lieut. Gordon, R. N., commander of fisheries protection fleet, has been appointed chief clerk in the department of marine at Ottawa, in place of Chipman. He will have the title of nautical adviser and will reside at Ottawa.

Hon. A. S. Hardy, Ontario's Commissioner of Crown Lands, whom ex-Governor Kellog, of Louisiana, has been describing as favoring annexation, declares that Kellogg had no foundation for his assertion, and gives it an unqualified contradiction.

Wm. Wilson has been committed for trial at Strathroy on the charge of causing the death of an old man named Upton. The two were scuffling in a bar-room when the latter fell or was thrown down. His skull was fractured by striking a spittoon, and he died in a short time.

At a special meeting of the Toronto branch of the National League, a resolution expressive of regret at the death of Mr. Charles Stewart Parnell, was adopted. It was resolved to hold a public meeting on Wednesday night, when resolutions of a similar character will be submitted.

Mrs. H. P. Timmerman, wife of the superintendent of the C.P.R., Atlantic division, is dead. Mr. Timmerman, the bereaved husband, was formerly assistant superintendent of the C.P.R. with headquarters at Port Arthur. Her death occurred in St. John, N.B., and the remains were interred at Montreal.

Four men were arrested in Montreal for stealing grain. They were sailors of the barge James Buckley, carrying grain from Chicago, and belonging to Norris & Carruthers, which had been transhipped at Kingston. They were in the habit of boring a hole through the forecastle and drawing the grain off in tubs.

It is reported that the offices of Superintendent of the Printing Department and that of Queen's Printer, from which it is understood Chamberlain will shortly be superannuated, will be amalgamated and given to Mr. C. H. Mackintosh, M.P. It is said that Mackintosh, who is about tired of newspaper and political struggles, would readily accept.

A. E. Powter, editor of the Glengarrian, Alexandria, was tried at Cornwall for publishing a libel on A. G. F. McDonald, of the same place. The article complained of as libellous was in connection with the service of the petition against the return of R. R. MacLennan. A true bill was found by the grand jury, but a verdict of not guilty was returned after hearing the evidence.

Montreal shipping circles are very active at present on account of the great rush of grain to that port, in order to get as much as possible away before the season of navigation closes. The large quantities of grain which are coming down have stiffened freights considerably. All general freight is offering freely, and steamships are having no difficulty in obtaining full cargoes.

A Montreal dispatch says: Things are not going on well at the custom house here. The men are grumbling and dissatisfied. They complain that their pay is late. Men are dismissed and there are not enough left to do the work. Consequently smuggling is rife, and below Quebec officials says there is work enough for three cruisers. The parishes are becoming debauched by cheap whiskey, though the church is doing all it can against the traffic. The whole region seems to be handed into a conspiracy to resist payment of duties, and are ready to resist the officers by force of arms. Men who should be attending to this state of affairs have been dismissed and smuggling is unchecked.

Ex-Ald. W. C. Thomas, head of the Thomas Piano Company, of Hamilton, is dead, aged 63.

Publishers are kicking against the importation of printed editions of songs copyrighted in Canada.

A commission to enquire into the conduct of Col. Herchmer, of the Mounted Police, will be issued in a few days.

Mr. Melhenger, a coal mining expert of Reynoldsville, Pa., has been sent out by the Dominion Coal Company to locate the mines at the Souris, Manitoba, coal fields.

B.B. Osler, Q.C., has been retained to prosecute Murphy, Connolly and Robert McGreevy. Action is expected to be taken in a few days. It is said that Senecal will be subjected to a criminal prosecution.

The Government has been apprised of the award of Boyd, Keefer and Gregory, the arbitrators in the famous suit of the Canadian Pacific Railway Company against the Dominion for damages respecting the Onderdonk section of the C.P.R.

A gang of hoodlums attacked the Protestant Mission Hall in the French Canadian quarter, Ottawa, last night and smashed the windows. The place was generally wrecked. One of the ladies, Mrs. Falding, was seriously cut with a stone.

It is announced that McGill University is the recipient of another handsome gift. Peter Redpath has announced his intention to erect a library building capable of holding 200,000 books, and to cost $100,000. The site for the building has been granted by the Molsons.

Hugh Ryan, who is in Ottawa, says that work on the Soo canal is progressing well. A large gang of men are at work both at the canal and the quarries and everything is progressing favorably. The enlargement of the lock is going on rapidly and will be completed before winter sets in.

As a result of the reorganization of the staffs of Harris, Sons & Co., and the Massey Manufacturing Company, now the Massey, Harris Company, limited, some important changes in the firm will be made. Mr. Van Allen, of Winnipeg, goes to Brantford as manager of the Brantford factory.

A QUARTER OF A CENTURY AGO

There settled in Baker county, Oregon, near what is now Baker City, a man who has since become identified with the resources and development of that country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the county. In a recent letter he says: "I had been suffering from pains in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pains in my back had become so severe that I was prevented from attending to my work and could not move about without the use of a cane. Hearing through a friend of the wonderful cures effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before using half the contents of the box the pains in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for anything."

Oregon Kidney Tea cures backache, incontinence of urine, brick dust sediment, burning or painful sensation while urinating, and all affections of the kidney or urinary organs of either sex.

PUBLIC NOTICE.

WHEREAS His Honor the Lieutenant-Governor-in-Council of the Province of British Columbia, has granted me a *Petition of Right* against the Crown, to set aside two Crown Grants, viz.: two Lots, 520 and 91, given to Sir Donald A. Smith and Richard B. Angus, for 5,000 acres of land in the City of Vancouver;

And whereas the case is now pending trial in the Supreme Court of British Columbia, all parties are warned not to purchase any land contained in the above-named grants, as they were issued unlawfully, without any Statute, or Act of the Legislature, or any consideration in money.

And further, that I am owner of Lot No. 1003, situated on English Bay, and within the above-named grant, *as shown by the District Registrar;* and all parties are warned not to purchase or negotiate for any of the above-named Lot No. 1003.

SAMUEL GREER.

THE GREER ESTATE.

NOTICE.

ALL PERSONS who have purchased lots in the above estate are respectfully requested to forward to box 185, Vancouver P.O., any sum or sums of money they may feel disposed, which amounts will be duly acknowledged and receipts therefor forwarded as credit on back payments, to meet the necessary expenses in three suits now pending, viz.: One criminal and two civil. I have not compromised any who may have purchased property in the estate referred to, with a tyrannical company, well knowing my many friends would stand by me. The darkest hour has arrived. My petition of right will be carried to the foot of the Throne and the six thousand acres, the Canadian Pacific Railway land grant, must fall to the ground. Justice will yet be had.

I AM A MAN

"I have been treated by doctors, who had long lists of so-called cured patients, but they could not reach my case, and hope had been murdered in me by fair promises, but on first application of your magical appliance, hope and confidence came flocking in stronger than the combined powers of the four winds. I knew then that you would cure me, and now that I am a man and well again, I cannot thank you sufficiently for the cure. So again I say, use my name as reference whenever you wish. You nor any one else cannot use words too strong to express my sentiments in favor of so wonderful a treatment as that given by you."

TO GET RID OF THE GARBAGE.

Mr. Engle, who has been establishing his system of cremating garbage in Vancouver, came over to Victoria last evening for the purpose of making final arrangements with the corporation, if possible, for the erection of a crematory here. The difficulty in obtaining a site has been the great obstacle in this city, as in many other places, but it seems that one has at last been selected to which no serious objection will be offered. Mr. Engle states most positively and emphatically that there is nothing offensive about a crematory conducted on his plan, as the combustion is complete, the smoke being consumed instead of being allowed to escape. All sorts of garbage are said to be effectively dealt with in this way where the system is in use, and no person need be told how necessary it is for a city to be kept clear of such filth. Mr. Engle last year bargained with the corporation of Toronto to build one of his crematories there, but every neighborhood so vigorously opposed its location near by that the work was blocked. As is well known Toronto empties the greater part of its sewage into its harbor, which has become extremely filthy, but there are still in that city a large number of cesspools and vaults. As a consequence of its faulty sanitary arrangements Toronto had in August last 184 cases of typhoid fever, or one case for every thousand of its population, the hospital being overcrowded at times by typhoid patients. Victoria has so far had no typhoid outbreak of any serious character, but unless some way of destroying the garbage and night soil is adopted there will most likely be one some day. Even when the sewerage system is completed there will be a great deal of filth that it cannot carry away, and if Mr. Engle's crematory system is as efficient as he asserts it to be it will be well to have it established as soon as possible. At all events, the Vancouver crematory will be in running order in a few days, when an opportunity to test the efficiency of the system will be afforded. There is no chance of the crematory here being established in any central locality, as the prejudice against it is too great, and, as Mr. Engle points out, long haulage must materially increase the running expenses. However, we understand that the site now contemplated will be within a somewhat reasonable distance. It is to be hoped that there will be no further obstacle to the erection of the crematory, if it is capable of doing the work claimed for it, a point which now seems to be within the range of settlement. Perfect sanitary arrangements are a great desideratum in cities of the present day, and Victoria's pre-eminent attractions as a place of residence will not be fully utilized if such arrangements are not well looked after here.

EDITORIAL NOTES.

Rev. Abbe Dugas has another letter in La Minerve bewailing the emigration of French Canadians to the States: "What is the fatality that pushes us towards that great republic, where, sooner or later, whatever may be said to the contrary, our nationality will be absorbed? The country is getting depopulated instead of increasing in settlement, and why should one fight to defend the political parties, who take no notice of this matter, which is the only one that should claim our attention at the present time?"

Nelson Miner:—Now that the Times-Vernon libel suit has ended—by Mr. Vernon getting $450 damages—the Colonist and News-Advertiser both print long-winded editorials on "Personal Attacks on Public Men," taking the ground that such attacks do no good. If we mistake not, both these high-minded papers attack not only public officials who do not suit them, but private citizens who have the temerity to run for office in opposition to the candidates they happen to support. The News-Advertiser has time and again been strictly personal in its attacks on Mayor Oppenheimer of Vancouver, and the Colonist was very personal in its attacks on Mr. Templeman and Mr. Marchant, who happened to be the Opposition candidates for members of the Dominion House at the last election. These two papers are no better than their neighbors, however much they try to appear otherwise. As long as officials are built as they are at present, the only way to break them of their bad habits is to rub them down occasionally with a "rough scrubbing brush" of cold type.

A short time ago the position of grain inspector at Toronto became vacant. The Board of Trade was of course anxious to see a capable man appointed to the place, but the Dominion Government, as usual, selected a gentleman whose principal qualification was the thoroughness with which he supported the Government. The Board's choice was the assistant inspector, who was well acquainted with the work and was also well qualified otherwise. Trouble arose a few days after the new man, Adamson, was appointed. A car of Manitoba wheat was graded No. 2 by the inspector, and an objection being raised a committee of the Board graded the wheat No. 1. When appointments to commercial positions are made on purely political grounds there is always likely to be trouble.

FRIDAY'S FIRE.

TO THE EDITOR:—The recent attack on the fire department, by the Colonist, is, as usual, without foundation. I am responsible to my superiors for the management of the fire department, and am ready to meet the editor or anyone else who wishes an investigation into the means used to suppress the recent fire. THOMAS DEASY,
Chief Engineer Victoria Fire Department.

POOR MAIL SERVICE.

TO THE EDITOR:—Please tell us, if you can, why our mails between Lillooet and Clinton are changed so often. We used to get our mail at Pavilion on Tuesday, but in the last three months it has been changed twice. We now get it on Friday. I suppose the next change will be no mail at all, which would do just as well, as our local papers are a week old when we get them. If the B. C. Express cannot carry the mail 47 miles for $5000 per year they should get $5000 more. It used to be carried for eight hundred or one thousand dollars, and carried according to contract. It would not be changed then without consulting us, but now they ask no one, not even the postmaster. PAVILION.

A Good Undertaking.

The members of the Sir William Wallace Society and Pipers' Association will shortly apply for incorporation as a joint stock company, whose object is to procure and hold land for general athletic purposes. The company will issue 250 shares of $50 each, amounting to $12,500. With this it is the intention to purchase a tract of ground at Oak Bay, covering some five acres, fit it up with a first-class twenty-foot wide quarter-mile track, suitable for bicycle and foot races, while the inner portion will serve the purposes of holding lacrosse and baseball matches, lawn tennis, and other tournaments. In addition to this, there will be erected appropriate buildings for the clubs, a grand stand, and other requirements. The location is near the street car terminus.

A Neat Home.

Mr. J. L. Stamford, of Braden & Stamford, is having a remarkably neat looking two storey residence built on Michigan street. The house is according to plans designed by Mr. A. M. Muir, the architect, and reflects credit on that gentleman's usual good taste. The style is modern, very freely and neatly treated all through the exterior, while the interior is designed with a threefold view to comfort, convenience and elegance. Mr. Stamford is fitting it up with the most modern and perfect sanitary arrangements, and will have on the whole a home that he may be proud of.

An Ontario Elopement.

Several months ago J. W. Perkins, of Bradford, Ontario, was appointed to the position of telegraph operator at the Bracebridge depot, which position he filled for a short time. During his residence there he fell in love with Miss Nellie Boyer, second daughter of the Bracebridge police magistrate. The affair became more serious than the young lady's parents were aware of, and about three weeks ago she went to Windermere to visit her aunt. Mr. Perkins also took a trip to the same place, and spending a day or two there the two left by the same boat. The young lady's aunt took it for granted that her neice was returning home and had no idea of the intimacy between Miss Boyer and Mr. Perkins. But when a week elapsed and no word was received at Bracebridge from the young lady enquiries were made and finally the search extended to Bradford, where Miss Boyer was found installed as Mrs. Perkins. It appears that after leaving Windermere the young couple went on to Gravenhurst, where they took the train to Orillia and were married by Rev. R. N. Grant. The marriage ceremony being one of the things that cannot be undone, the young ladies friends have decided to make no fuss.

Trade in Canada.

NEW YORK, Oct. 11.—Bradstreet's report says:—There is a fair distribution of dry goods in the Dominion of Canada. In the province of Quebec general trade is active and moderately so in Ontario. The export demand for wheat and rye continues a feature. The Dominion reports 38 failures this week, against 29 last week, and 30 this week last year.

Death's Hand.

Samuel H. Travis, a native of this city aged 23 years, died yesterday of consumption. The deceased was well known around town. The funeral will take place to-morrow afternoon at 2 o'clock from his mother's residence, 97 View street.

Drunks in a Majority.

Five drunks contributed most of the revenue accruing to the city through the proceedings at the city police court this morning, each paying a fine of $5. A young man charged with firing off a gun in Beacon Hill park was fined $2, and another individual who had seen fit to carry a slung-shot was fined $5.

Another Brick Block.

Mr. E. Mallandaine, architect, this morning let the contact for R. Maynard's new brick block on Pandora street to M. Humber & Sons, the price being $7000. The building will be 35x60 feet, two stories with basement. The upper floor will be used as a photograph gallery and the lower floor for stores.

On the Street Car Wires.

This morning a C.P.R. telegraph wire fell across the electric street car live wire at Vancouver, and the result was a disabled system for a few hours. The instruments at Victoria were heated up to a dangerous degree, and electricity flew around quite briskly for a time. Later on the trouble was got over, and all is working well now.

Laid to Rest.

The funeral of the late Abel Beswick took place at 2.30 yesterday afternoon from the Oddfellows' Hall under the auspices of Columbia Lodge No. 2. M. G. Blanchard, N. G., presided, and the burial service was impressively read by A. Henderson, P. G. The funeral was very largely attended. The pallbearers were Henry Waller, G. H. Maynard, W. J. Pendray, Jas. Pope, M. Humber and A. Shaw.

Damages Assessed.

The damages at the Spencer Arcade fire on Friday have been assessed at $700 on the building and $4100 on the stock. These losses are divided among seven or eight companies, and no particular one suffers much. One agent said this morning considering that stock valued at $130,000 was carried, the loss was light, and the fire department should be credited with ability and its head with judgment. "Had a chemical engine been available, however," said he, "the loss would have been even less."

Freight Notes.

The Yosemite brought down a car load of sugar and two car loads of miscellaneous merchandise last evening.

The City of Kingston on Saturday evening brought over a car load of coal oil and one of general merchandise.

The steamer Walla Walla, for San Francisco, yesterday took 3700 cases salmon, 400 bundles salt hides and nine sacks of quartz.

Bark Lebu is about discharged and will soon be ready to load salmon.

Bark Wanlock commenced discharging this afternoon. She will also load salmon for the U. K.

Street Car Notes.

Two of the new street cars ordered by the N.E.T. & L. Company arrived over from the Sound on the steamer Walla Walla yesterday morning. The others will be here shortly. They are badly needed by the company, who have lately been unable to put cars in the repair shop, owing to having substitutes for them.

Contractor Sinclair this morning commenced grading for the Pandora addition of the car system.

Two of the Fort street cars were disabled yesterday, making travelling in that direction rather tedious.

C. O. O. F., M. U.

Royal Fernwood Lodge met last Friday evening as usual. There was a very large turnout of members. Eight candidates were in waiting and were duly initiated. A number of new propositions were received, so that the lodge may now count itself 120 strong. The lodge decided to build a hall, and to that end bought a lot on Fernwood road. The hall will undoubtedly be erected at once. Much enthusiasm has prevailed in this infant lodge, every member feeling that it is his lodge and that it is to his interest to work for it. The lodge meets every Friday evening in the Icelanders' Hall until the pressure of business has somewhat subsided.

A Vancouver Libel Suit.

Mr. F. C. Cotton, M.P.P., of the Vancouver News-Advertiser, has instructed his solicitors to commence suit for libel, demanding $10,000, for the statements made in the other Vancouver newspapers within the last few days in respect to contract for the city advertising. The other papers accused Mr. Cotton of "spacing out" the city advertisements in order to make them profitable. The Advertiser, in announcing Mr. Cotton's action, says: "Ever since the provincial election of June, 1886 he has been subjected to constant abuse by a little clique in this city, and now proposes to let a jury deal with the matter in an exemplary manner."

A Wonderful Jehu.

On Friday evening last a very close shave occurred to a party of three gentlemen returning from the Saanich races in an English dog-cart. The driver certainly must have wished to display his skill in handling the ribbons, for, on approaching the Royal Oak, the road being on the decline, he thought to show off before his friends, and came down the hill at too fast a pace, taking a sudden turn to draw up at the door of the hotel as he imagined in "gran style." The cart turned over, and all were dumped out on the road. Fortunately no bones were broken, and the marvellous driver, getting on his feet, exclaimed, "My dear friends, now I've won the bet!"

The Feast of Hallow E'en.

The Sir William Wallace Society are already making active preparations for their Hallow E'en concert and ball. It is expected that this good old Scottish festival will be observed with more than usual honor by Victoria Scotsmen this year.

The District Telegraph.

The work of putting in the signal boxes of the District Telegraph Company was commenced to-day, and will be completed by the end of the week. The connecting wires are in place, and it is expected that the whole system will be in operation by the beginning of next week.

The Emma Wrecked.

The steamer Emma, belonging to J. T. Fisher her engineer, was wrecked last night on Trial island. She left here with two empty scows in tow and was carried on to the rocks by a strong ebb tide that was flowing. A hole was stove in her hull and when the tide lowered she keeled right over and went under. Mr. Fisher came down this morning to get assistance to try and save her.

Williams' 1892 Directory.

Williams' directory for 1892 has gone to press for the first proofs. It promises to be a revolution in directories in this province both in point of comprehensiveness and accuracy. There will alo be several new features, consisting of views, maps, biographical sketches and other points. It will include over one thousand pages. Mr. Williams expects to have it in the hands of subscribers by the first of the year, and with additions and corrections practically up to date.

A Muffled Bell.

A brilliant mind conceived the idea some week ago of covering in the bell of the city hall clock. Just why this was done was not clearly mentioned at the time the sapient project was first broached, and now, after several hundred dollars have been expended, the tones of the bell come to the citizens' ears very much muffled. People in the near suburbs who relied on the clock bell for standard time now listen in vain for the strokes which announce the fleeting hour. A gentleman speaking to a reporter to-day said he should agitate to have the cover taken off, so that the bell can be heard something more than three blocks.

Innes' Grand Concert.

The big band of the Thirteenth Regiment received a rousing welcome at the Madison Square Garden last night, says the N.Y. Evening Telegram, and Bandmaster Innes and his musicians seemed elated at the heartiness of the welcome bestowed where Thomas had preceded him. An excellent programme had been prepared, and Conductor Innes showed himself equal to the public taste. Liszt's "Rhapsody No. 2," Scharwenka's Polish Dances, the "Mercedes" of Dissane, and "Loin du Bal," by Gillet, were the most conspicuous numbers on the programme. The band will appear at the Victoria Theatre to-night and to-morrow night, giving a grand concert.

A Nasty Bit of Road.

The present state of that portion of Saanich road immediately within the city limits ruins two things very quickly—a driver's temper and the springs of a vehicle. A great deal of this vexation of spirit and risks to vehicles can be avoided by taking the Bolenski road leading from the Saanich to the Burnside road. This way has been only recently opened, and makes a good drive. It is becoming rapidly built upon too, there being several nice residences and a school house erected already. The Espiscopal congregation have secured a site for a new church, plans for which are now in preparation. It is a cause of complaint by farmers from Saanich district that now such a short cut to Esquimalt is offered by this way that the Harriet road, which leads directly to the Gorge road, is not open for traffic, but the expecation is that this will shortly be done.

Mrs. Krekel's Lecture.

A large audience gathered at the Victoria theatre last evening to listen to Mrs. M. P. Krekel, the lady lecturer who spoke on the aims and objects of secularism. The lady was introduced by Mr. Simeon Duck and spoke very eloquently and pointedly on the subject chosen. She held that secularism was the best belief for mankind, insomuch as it recognized no providence but natural law, and no saviour but human effort. Science, the speaker said, had done far more for the advancement of the human race than revelation ever did. Philosophy had spoken more truths for the good of mankind than had theology. To be true to one's self, and one's neighbors, and live an upright honest life here and now, was better than prayer and worship which could only affect an after life of which we know nothing. In a very able manner the lady speaker took up her points, and was frequently and heartily applauded.

The World Enriched.

The facilities of the present day, for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

By Mr. Davies' agreement with the city, his commission of 5 per cent. on the total, or $1161, is now payable to the Jubilee Hospital.

The sale has resulted well in all ways. The city gets a good sum, the Hospital a lift, the buyers good bargains.

Mr. Davies will receive the thanks of the Hospital Committee for his good day's work.

THE TRIP TO TACOMA.

Saturday's Excursion to the City of Destiny—A Pleasant Time.

Early on Saturday morning the steamer Olympian, with about 500 Victorians, among them many of the leaders of society, on board, left the wharf for Tacoma. The trip over was rather a long one, owing to a strong head wind, but everybody was good natured, and the first-class meals furnished on the boat, together with the courteous attention of the steamer's men, made everything pleasant.

About ten miles this side of Tacoma a couple of steam launches, on which were Judge Parsons and others, met the steamer and their passengers were taken on board, when the judge and his companions were introduced to many of the visitors. The judge in his welcome said: "However your country and ours may be separated by natural boundaries, there is one field in which they are together, one field in which no division line is drawn, and that is the field of friendliness and good fellowship. We have invited you here that we may know you better, and to have you see what little we have to show. I bid you a most cordial welcome, and for this visit we are your debtors."

Hon. John Robson in replying said: "It is a pleasure to hear such a cordial welcome and I speak in behalf of the citizens of Victoria and Vancouver when I say no matter how high you build the McKinley wall nothing will prevent our climbing over and extending the friendly hand. If we cannot have commercial intercourse no tariff can prevent our social intercourse. We are brothers in nature, and it is only right that we should come together in this way, the oftener the better. The natural boundaries should not prevent this fraternal bond from growing stronger. Again I thank you for your cordiality."

When the wharf was reached a band played welcome numbers and a throng and Tacomaites, at a call from Col. Huston, gave three cheers for Victoria, when a start was made for the exposition. The sights seen there are too many to be told of in this article, but everybody was pleased. Innes' famous band played, and that in itself was worth the trip, to say nothing of the other attractions.

In the evening a banquet was given at the Tacoma Hotel, at which the leading visitors were entertained, 40 covers being laid. A very pleasant time was had.

Chief Lillis, of Tacoma, who conceived such a liking for Victoria while here during the firemen's tournament, did everything he could to entertain the representatives of the Victoria fire department who were on the excursion. He succeeded, as only a gentleman can, in making his guests feel at home, his kindness being delicately and courteously extended. He was ably seconded by City Controller Taylor, a genial gentleman.

After a very pleasant afternoon and evening a start was made at 11 o'clock for home, all hands pleased with their trip.

For Sweet Charity.

The tickets for the first annual ball in aid of the Provincial Royal Jubilee Hospital are now ready and are being rapidly sold by the energetic members of the Ladies' Auxilliary. The Warspite band will supply the music, which will help to make the ball of the 29th instant one of the grandest events of the coming season. The grand march will take place at 9 o'clock sharp.

Shares Being Taken.

The subscribers list for the Board of Trade building is steadily being filled up and a large number of shares have been taken up. It is not likely that the calls on the shares will exceed $10 a month so that it is easy for any one to take one or more. Every member of the Board should become a subscriber.

The First Concert.

The three temperance lodges of this city will give a united concert Oct. 20th in Temperance Hall. The programme will consist of music, vocal and instrumental, recitations and dialogues. Some of the best talent in Victoria will take part.

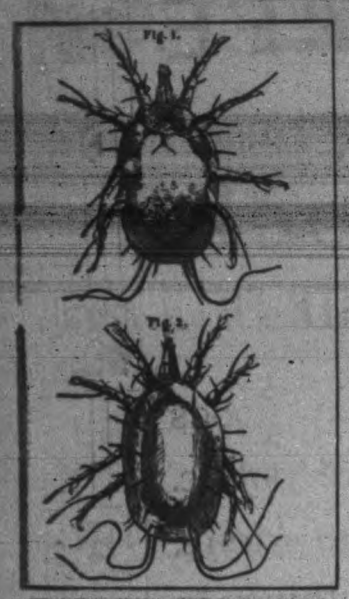
CHINESE - SUGARS; - WHAT - IT - IS - WE - MAY - BE - EATING!



DRAWN FROM LIFE FROM INSECTS FOUND IN GROCERY

In view of the introduction to the Province recently of considerable quantities of Chinese Sugars, it may be as well that the Public should be informed, on the very highest possible authority, of the danger that may be attendant upon their use.

Professor Cameron, Public Analyst, Dublin, a gentleman who has made it his special business to examine all kinds of Foreign Sugars, Refined and other, says that certain kinds of them should never be used. He states that they contain great numbers of DISGUSTING INSECTS, which produce a DISGUSTING DISEASE. Their shape is very accurately shown in the accompanying cut, which is magnified two hundred diameters. Figure 1 is the under side, and Figure 2 the upper. The Professor's description is as follows:—

"This insect ('the Acarus Sacchari') is a formidably organized, exceedingly lively, and decidedly ugly little animal. From its oval-shaped body stretches forth a proboscis terminating in a kind of scissors, with which it seizes its food. Its organs of locomotion consist of eight legs, each jointed and furnished at its extremity with a hook. In the Sugar its movements from one place to another are necessarily very slow, but when placed on a perfectly clean and dry surface, it moves along with great rapidity." He adds that the number of "Acari' found in Unrefined Sugar is "sometimes exceedingly great, and in no instance is the article quite free from either the insects or their eggs." He further says:—"The Acari Sacchari" do not occur in Refined Sugar of any quality, because they cannot pass through the charcoal filters of the Refinery, and because Refined Sugar does not contain any nitrogenous substance upon which they can feed."

COOLIE - MADE - AND - ALL - UNREFINED - SUGARS - SHOULD - NEVER - BE - USED!

Besides its being impossible for Canadian Labor to compete with Coolie Labor, rice fed and under paid, it is well known that Eastern Countries have always been the breeding ground for leprosy and all other loathsome and horrible human diseases, and hand labor there is so cheap that there is no inducement to employ machinery. Home Refined Sugar, on the contrary, is never touched by the human hand from the moment it reaches the refiner until it leaves him a perfectly safe and purified article.

Use, therefore, Only Home Refined Sugars; They Are Absolutely Unadulterated, Pure and Cheap.

MOUNTAIN NEWS.

Clippings From the Inland Press—Mining Notes.

[From the Kamloops Sentinel.]

Hon. Justice Walkem, revising officer for the electoral district of Yale, held a court of revision at Kamloops, for the Kamloops division, on the 5th instant, after the assizes, and will finally settle the list on Oct. 13.

The fall assizes were held here by Justice Walkem on Monday, 5th inst., the court opening at 10 a.m. There was no criminal case on the docket and Sheriff Pemberton, in compliance with a long-honored custom, presented his lordship with an elegant pair of white kid gloves, emblematic of the purity of morals in the district, and consequent freedom from crime.

Mr. Archibald McKinley died on Sunday morning last, Oct. 4, at 9:30, at the residence of his son-in-law, Mr. A. B. Ferguson, of Savona, at the age of nearly 81 years.

[Kootenay Era.]

Last Sunday a flurry of snow made the Goldenites think of the winter months. It was the first of the season.

The saw mill belonging to R. Mathers, in the upper country, has been completely destroyed by fire. A large quantity of lumber was also consumed.

The Church of England is in course of erection. About $800 has been collected. There remains a balance to collect to pay off our debts of $500.

A contract has been let for erecting a church on the Shuswap reserve. It is to be paid for entirely in produce, steers, furs and vegetables. The proposed church will be completed at an early date. One of their own tribe is the missionary.

[From the Nelson Miner.]

An attempt was made on the night of the 2nd to rob A. J. Moeps, of the Nelson House.

There were several inches of snow on Toad Mountain the fore part of the week, and the air up there was sort of mid-wintry in its chilliness.

The Kaslo-Slocan excitement has almost depopulated Ainsworth, but one woman (Mrs. Trenery) being left in the town.

The ore in the upraise in the Skyline is not only improving, but it is of uniformly good grade across the entire width of the vein—about 12 feet.

The Nelson public school was formally opened on Tuesday by the instalment of Miss Rath as teacher. Miss Rath recently came from Ontario to Kamloops, and the Nelson school is her first in British Columbia.

A miner who has worked off and on the Silver King since its discovery said last Wednesday: "Yesterday I saw the finest specimen of ore taken from the No. 1 crosscut that I ever saw in the Silver King."

Dr. Hendryx came in from the outside on Tuesday night, after spending a month or more in the East. He reports that his company has made all the arrangements for the erection of a smelter at Pilot Bay, and that the work of grading a site and erecting piers and wharves will be commenced within the month. The plant will be manufactured by the Chicago Iron Works, and will consist of an 80-ton smelter, a concentrator of 150 tons capacity, and a refinery. The concentrator will probably be erected on the west side of the lake.

The Crops in Britain.

LONDON, Oct. 10.—The Times to-day publishes its final harvest estimates of British crops and gives the average condition by counties. The special reports on which these estimates are based are of October 5, and on that date the conditions are given as follows: In percentages of actual average crops of the preceding years for Great Britain 92.54; barley, 91.60; oats, 89.42. For England, potatoes, 96.14; beans, 97.60; roots, 90.20. The report says the wet and unsettled weather during which the British crops have been grown and harvested has made the processes of cutting and garnering a somewhat tedious and even expensive business. The laying and twisting of growing cereals rendered the use of machines impossible and farmers had to fall back upon hand labor, which has been both scarce and comparatively dear. Speaking generally, the harvest of 1891 may be said to be well nigh past, and while some farmers say they have harvested their crops fairly well, others give their opinion that this has been the worst harvest time for years It is quite certain that the yield will be less than at one time looked for and the year will be remembered as one of great promise and equal disappointment. Another trouble is that the land has not been so foul as it now is since 1881. Where threshing has taken place some reports give four bushels to the acre less than was expected. A great deal of the grain has sprouted, and samples are not plentiful without this fault as well as being stained. There is a general agreement that wheat must remain in stack for three or four months before it can be threshed and marketed in anything like condition to insure a moderate price.

Shot Her Brutal Husband.

BINGHAMTON, N.Y., Oct. 12.—Domestic infelicity caused Mrs. Alvin Delong, of this city, to shoot her husband about midnight Saturday night, killing him instantly. One of the bullets entered his left arm and the other his heart. Some years ago Delong was employed on the Delaware & Hudson Railway, but lost the position on account of his bacchanalian propensities. Then he took up painting and paperhanging for a vocation. He was a hard worker, but spent large portions of his earnings with other women and for liquor. His family includes three children, two daughters, the eldest of whom is 17 years old, and a son about 14 years of age. On Saturday Delong attended a fair in this city, and when he returned to supper it was plainly evident that he had been drinking. He started to go out of the house, and Mrs. Delong pleaded vainly with him to remain. Soon after 11 p.m. Mrs. Delong and a little dog named Pete, started out to hunt him up. The dog had no trouble in striking his trail, and led his mistress to a house kept by a woman of checkered career. Miss Delong enquired for her husband. Hearing her voice, he stepped out and used her shamefully. Finally he accompanied her home, abusing her every step of the way. When near home Delong assaulted his wife. Just then two shots were fired, and by the time the officer arrived, Delong was found dead at his wife's feet. Mrs. Delong was arrested and lodged in jail. During the day she has been irresponsible for her utterances. Her husband had mauled and kicked her, she said, until she could put up with it no longer.

Claims Against Chili.

VALPARAISO, Chili (via Galveston, Texas), Oct. 11.—According to the present political outlook the Liberals will carry the large towns at the coming elections. The Conservatives and semi-clerical party will make gains in the country districts. At the earliest opportunity after the firm establishment of the new government a number of claims will be presented for payment by representatives of the different foreign nations here. The British claims amount to between $50,000,000 and $60,000,000, and separate English claims to between $10,000,000 and $20,000,000. They are for damages to the nitrate works and for railroads and buildings destroyed during the bombardment of Iquique, also for losses incurred by business houses at Valparaiso after the battle of La Placilla and for the detention of the Pacific Steamship Navigation Company's steamers and the vessels of other parties. Spanish and Italian claims amount to $1,500,000 each, and are for the sacking of stores during the riots that followed the taking of Valparaiso by the Junta's troops. American claims amount to only $25,000, the estimated value of property destroyed in the vicinity of this city. All these claims are now filed at the respective legations. The resumption of guano shipments from the Lohos deposits will be made at an early date and new officials will be detailed to look after them.

Miss Eastlake Victimized.

PHILADELPHIA, Oct. 12.—Miss Eastlake, the popular English actress, who was for many years the leading lady in Wilson Barrett's Company, and who recently started on a starring tour of this country, was left at the Walnut Street Theatre last night without a cent to pay the salaries of her company. The management of the theatre attached all the box office checks and the scenery, which belonged to Miss Eastlake. Miss Eastlake opened here at the Walnut Street Theatre last Monday, and after playing through the week to fairly good houses was suddenly informed by the management of the theatre after Friday night's performance that the receipts and her scenery would be attached for money borrowed by her manager about three weeks ago, when he was playing George Barrett at the New Park Theatre, which belongs to the same people as the Walnut street house. Miss Eastlake has been compelled to cable for money, and has broken up her company and cancelled all dates made by Sammis. She intends to reorganize and finish out her American tour.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses 35 cents.

Texas Train Robbers.

PARIS, Texas, Oct. 10.—A desperate attempt was made to hold up the southbound passenger train on the St. Louis and San Francisco road 100 miles north of here at 3 o'clock this morning. Several shots were fired. Conductor Carr knocked one of the robbers down with his lamp, just as the man was preparing to fire with his pistol at the conductor's breast.

King of Medicines

A Cure "Almost Miraculous."

"When I was 14 years of age I had a severe attack of rheumatism, and after I recovered had to go on crutches. A year later, scrofula, in the form of white swellings, appeared on various parts of my body, and for 11 years I was an invalid, being confined to my bed 6 years. In that time ten or eleven sores appeared and broke, causing me great pain and suffering. I feared I never should get well.

"Early in 1886 I went to Chicago to visit a sister, but was confined to my bed most of the time I was there. In July I read a book, 'A Day with a Circus,' in which were statements of cures by Hood's Sarsaparilla. I was so impressed with the success of this medicine that I decided to try it. To my great gratification the sores soon decreased, and I began to feel better and in a short time I was up and out of doors. I continued to take Hood's Sarsaparilla for about a year, when, having used six bottles, I had become so fully released from the disease that I went to work for the Flint & Walling Mfg. Co., and since then HAVE NOT LOST A SINGLE DAY on account of sickness. I believe the disease is expelled from my system, I always feel well, am in good spirits and have a good appetite. I am now 27 years of age and can walk as well as any one, except that one limb is a little shorter than the other, owing to the loss of bone, and the sores formerly on my right leg. To my friends my recovery seems almost miraculous, and I think Hood's Sarsaparilla is the king of medicines." WILLIAM A. LEHR, 9 N. Railroad St., Kendallville, Ind.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.)

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL (Steam Fuel).

THE NEW WELLINGTON COAL

House and Steam (Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, a high Illuminating Power unequalled by any other bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines on the Pacific.

THE "NEW WELLINGTON" COAL which was introduced early in the present year, has already become a favorite fuel for domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay where ships of the largest tonnage are loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

A BY-LAW

To authorize certain officials to borrow money to meet current expenditure.

WHEREAS by Sub-section 133 of Section 96 of the "Municipal Act, 1891," it is enacted that the municipal council of any city in the Province of British Columbia be authorized under the conditions there expressed to borrow from any person such sum of money and bearing such rate of interest as may be requisite to meet the current legal expenditure of the corporation which becomes payable out of the annual revenue before the revenue for the year becomes payable by the taxpayers;

AND WHEREAS it is found necessary in order to meet the current legal expenditure of the Corporation of the City of Victoria to borrow the sums of money hereinafter mentioned in accordance with said Sub-section 133 of Section 96 of said "Municipal Act, 1891."

THEREFORE BE IT ENACTED by the Mayor and Aldermen of the Corporation of the City of Victoria as follows:

1. It shall be lawful for the Corporation of the City of Victoria to borrow from the Bank of British North America such sums of money as may be requisite to meet the current legal expenditure of the said Corporation which becomes payable out of the municipal revenue, and the amounts so borrowed shall be repayable and repaid on or before the 31st day of December, A.D. 1891, out of the municipal revenue for the said year.

2. The amounts so borrowed shall not exceed in the whole the sum of Two Hundred and Fifty Thousand Dollars ($250,000), and the rate of interest payable thereon shall not exceed the rate of six per centum per annum.

3. The obligation to be given to the said Bank shall be in writing signed by the Mayor and the Clerk of the Municipal Council of the said Corporation and shall be in the form of a promissory note and shall bear the corporate seal of the said Corporation.

4. All agreements for advance heretofore made from said Bank are herby confirmed.

5. The "Bank Credit Amendment By-Law, 1891," is hereby repealed.

6. This By-Law may be cited as the "Bank Credit Amendment By-Law, 1891, No. 2."

Passed the Municipal Council the 23rd day of September, A.D., 1891.

Reconsidered and finally passed the Council this 5th day of October, A.D., 1891.

A BY-LAW

For the levying of Rates upon Land and the Improvements thereon.

BE IT ENACTED by the Council of the Corporation of the City of Victoria as follows:

1. This By-Law may be cited as "The Land and Improvement Rate By-Law."

2. From and after the passing of this By-Law there shall be raised levied and collected upon all the land and improvements upon the assessment roll of the Corporation of the City of Victoria the following rates on the assessed value thereof as appears by the said roll:

Upon all land an equal rate of one per cent. and one-half of one per cent.

Upon all improvements upon land an equal rate of three quarters of one per cent.

3. The aforesaid rates and taxes shall be due and payable by the person or persons liable therefor to the Collector of the said Corporation at his office at the City Hall in the City of Victoria on or before the 1st day of December, 1891.

Passed the Municipal Council the 23rd day of September, A.D. 1891.

Re-considered and finally passed the Council the 5th day of October, A.D., 1891.

NANAIMO NEWS.

A Shaft Closed Down—Another Contractor Skips—Electric Lighting.

NANAIMO, Oct. 12.—No. 3 shaft of the New Vancouver Coal Co.'s mine was closed down Friday for an indefinite period. This throws about one hundred men out of employment, with little hope of getting work again for some time. There are still plenty of vessels in the harbor, but it is stated at the company's office that trade in San Francisco is not very encouraging, so the company decided to close down this mine. It was rumored some time ago that the coal in this pit was fast playing out, and lately the pillars have been drawn out, and the remainder can be taken out without any difficulty being met with. The closing down of this pit is causing considerable talk in the city, as it is of great importance to the working community.

DECAMPED.

Another carpenter who had the contract for building a large house in this city, is reported to have decamped without having paid his men. It would appear that cases of this description are becoming too frequent, and it would be well before paying the contractor such large sums to ascertain whether the workmen have been paid or not. Such rascality has a serious effect upon a laboring man, and forces him to a severe struggle to maintain his home and family. It is not the man who supplies the material who suffers, but the man who has been working for a wage. It is to be hoped that when a contract for building is given in future care will be taken to see that the workmen are paid when a draft is given.

LIGHTING THE CITY.

Mr. A. Shaw, proprietor of the electric light works in this city, has had a large force of men engaged in stretching the wires for the arc light system. The wish of the inhabitants to see the city illuminated promises to be gratified by the 1st December next. Nearly everybody appears to be satisfied with the plan adopted by the City Council in contracting with Mr. Shaw, and that gentleman is certainly deserving of patronage for the courage and enterprise displayed by him and there is little doubt that he will continue to meet with success.

LITTLE HAPPENINGS.

Several parties went out hunting yesterday and all returned to the city with trophies.

The shipping continues to increase in the harbor. Several new arrivals made their appearance yesterday.

The corporation are still engaged in opening up new streets according to the money appropriated for them.

It is said the next land to be placed on the market by the New V.C.Co. will be that on Comox road, just passed the cemetery.

The Treves Holy Coat.

LONDON, Oct. 12.—The holy coat exhibition at Treves has not been closed as a large number of French pilgrims are expected in a day or two. The number of pilgrims has been increasing instead of diminishing as the close of the exhibition approaches. The total now is about 2,000,000. About a dozen miracles are reported through touching the holy coat, but the authorities are careful about endorsing any one. They propose to content themselves and to satisfy the faithful by simply publishing the certificates of attending physicians as to the condition of the patient before and after touching the relic. Apart from these certificates the cathedral ecclesiastics will have nothing to say, leaving all to judge for themselves. The cathedral has profited so greatly by the donations of pilgrims that a new and splendid shrine has been prepared as a place of deposit for the holy coat. This shrine has been made at Stuttgart. The Pope's share of the donation is also very large, although no public account of the sum has yet been given.

CRICKET.

THE ENGLISHMEN AT BALTIMORE.

BALTIMORE, Oct. 10.—The English cricketers easily defeated the Baltimoreans to-day, winning by one inning and 150 runs. The home eleven made a fairly creditable showing on Friday afternoon, when they scored 52 runs with four wickets down. In to-day's play they were simply slaughtered. There were 11 men of the 15 left to bat, and the ten wickets went down for 18 runs, making a total of 70. The Baltimoreans finished their innings and were soon retired for 85 runs, giving them a total of 155. As the visitors had scored 365 runs in their first, they were the victors by one inning and 150 runs. The Englishmen after the game gave an exhibition to satisfy the large number of spectators present. In this exhibition they made 168 runs for six wickets down.

FOOTBALL.

ONE MORE VICTORY.

A cablegram from Shrewsbury, England, says the Canadian-Americans played an eleven representing Shropshire winning by 6 to 3.

SATURDAY'S MATCH.

On Saturday afternoon teams representing the Navy and the Victoria Club played a Rugby game at the park. The former were victorious by two tries to one. A return match is to be played next Saturday.

Explorers in Africa.

BRUSSELS, Oct. 10.—No information has yet been received here confirmatory of the Zanzibar telegram published in Berlin announcing that the Berlin expedition led by Jacques had been attacked and destroyed in Eastern Africa. Capt. Jacques left Belgium in the spring to go on behalf of the Bussels anti-slavery Society to Lake Tanganyika to suppress slave trading. He started from Bangamayo for the interior on July 12 with a missionary expedition, the two expeditions forming a caravan of 1500 men protected by one hundred rifles. It is believed to be possible that on reaching Ugogo he may have met with native hostility, which was encouraged by the recent victory of Wahels over the German Zuliwoski expedition. It is, nevertheless, believed if the disaster occurred Cardinal Lavigerie would have received direct telegraphic advices. The last letter received from Capt. Jacques' expedition is dated from a place north of Manjwa, August 6.

The 'Frisco Postoffice Site.

WASHINGTON, Oct. 10.—Secretary Foster said to-day that he could not understand the opposition that had developed to the site selected in San Francisco for a public building. "The site selected, Seventh and Mission streets," he said, "was recommended by a commission authorized by the last Congress and indorsed by both the California senators, by members of Congress from San Francisco, and by Messrs. Crocker and Huntington. It was approved by the Attorney-General, Postmaster General Wannamaker and myself." Secretary Foster said he wished it stated in justice to Postmaster General Wannamaker that the site selected was not the one recommended by the Postmaster General. Editor De Young of the San Francisco Chronicle this evening telegraphed Secretary Foster that the Mission street site was a quagmire, and that it would cost $1,000,000 to lay a foundation.

DIED.

TRAVIS.—In this city on the 11th instant, of consumption, Samuel Henry, second son of the late Augustus and Julia Travis, a native of Victoria, aged 23 years.

The funeral will take place to-morrow (Tuesday) at 2 o'clock from his mother's residence, No. 27 View street, and at half past 2 at the Reformed Episcopal church.
